Casper Fire-EMS

## 9/11 Memorial Stair Climb

**Casper, Wyoming (September 8, 2016)** – This Sunday, September 11, Casper Firefighters are having a memorial stair climb to commemorate 9/11. The climb will take place at the downtown parking garage on Center Street. The event will begin with a ceremony at 7:45 AM and a moment of silence at 7:59, the time the first tower of the World Trade Center collapsed.

Firefighters will be utilizing both the Center Street and Wolcott side staircases and will each climb an equivalent 110 stories. Firefighters from several area fire agencies are expected to participate. Crews will be participating on a rotational basis and the event will be ongoing through the day as long as participants remain. The stairs will remain open and accessible to the public using the parking garage during the event.

While we are unable to open the event for public participation, we welcome all to stop by. We invite the public to stop by to support the event and help us remember those that we lost in the attacks of 9/11.
